Exclusive Experiences

At Château de Cîteaux, the vineyards are never merely a backdrop. Our experiences offer an authentic way to discover Burgundy through the people who shape it: tastings in the historic Cistercian cellars, encounters with local winemakers, cycling through the heart of the Climats, seasonal harvest experiences, picnics among the vines and al fresco dinners, hot-air balloon flights and yoga sessions.

Each experience is thoughtfully designed to bring people together and offer a deeper connection to one of the world's great wine regions.

About
Fontenille Collection

Founded in 2016 by Frédéric Biousse and Guillaume Foucher around an ancestral vineyard in the Luberon, Fontenille Collection is both an entrepreneurial and a human adventure, born from a simple conviction: that every place has a story waiting to be revealed. Now a certified *Mission-Driven Company*, the Collection brings together 13 distinctive properties across France, Italy and Spain, each selected for the uniqueness of its heritage, the beauty of its surroundings and the richness of its history.

Every property tells its own story and offers a unique way to discover its destination. Through culture, gastronomy, wellness and the art of hospitality, Fontenille Collection has created an approach to luxury that is defined by simplicity, elegance and authenticity.

From the cliffs of Menorca to the rolling hills of Tuscany, from the Calanques of Marseille to the vineyards of the Luberon, each landscape contributes to a shared vision of travel - one that is thoughtful, deeply rooted in place, and inspired by the living heritage of every property.
